Quantity Surveyor for Quantity Surveyors

QS4QS

QS4QS (Quantity Surveyor for Quantity Surveyors) is a leading professional training and consultancy organisation specialising in Quantity Surveying, Contracts Management and construction industry education. QS4QS bridges the gap between academic learning and practical industry experience. Having trained over 50,000 construction professionals worldwide and supporteal more than 1,000 candidates in achieving MRICS chartership, QS4QS offers industry-focused training, professional mentoring, RICS APC guidance and career development opportunities.

Programme Overview

The BSc (Hons) Quantity Surveying (Top Up) programme is designed for individuals who aspire to build a successful career in the construction industry. It equips students with the knowledge, technical expertise and practical skills required to effectively manage the financial and contractual aspects of construction projects from inception to completion.
As an RICS approved Partnership Centre, Birmingham City University delivers a programme that meets recognised professional standards, ensuring graduates are well prepared for the demands of the modern construction sector. Throughout the course, students develop a strong understanding of cost management, procurement, contract administration, project planning and construction economics, while gaining the analytical and problem solving skills required to deliver successful construction projects.
